About This Game

Vision Runner is a First Person Parkour game currently in development with Unreal Engine 4.

The concept of Vision Runner is the Build, Share & Play principle. You got the opportunity to make your own maps/parkour's with the In-Game map editor and then sharing them by uploading it automatically after the press of a button to our servers. Then all players can download and play the map in a race against the clock from the map browser or as we call it "Parkour Central".

The Editor is easy to use, since we've made it completely grid-based. Players can simply place Blocks or Objects on the floor or other blocks.

Early Access Features

- In-Game map editor with basic features and map sharing
- Parkour Central (map browser)
- Playing maps from us or other players against the time.
- Basic parkour movement: climbing, sliding, wall running, jump over

Planned Features

- Multiplayer
- More Game Modes like Trick Running
- Various Textures for Objects
- More Content for the Editor
- More Tricks
- Various Characters
- Weather
- Map Locations
- Mini-Story Creator*

*Low Priority
